Ithaca College

2006

Ithaca, NY

BS Business Administration

Junior developer with prior experience in nonprofit operations. Driven by the prospect of continued learning while contributing to a more equitable world, I am currently seeking an opportunity to support the software needs of an organization whose mission is to lift its community.

GENERAL ASSEMBLY *London, UK (Remote)*

8/2020 – 10/2020

Completed a 12-week immersive course on full-stack web development including collaborative projects focusing on fundamentals of MERN and SQL supported applications, the MVC framework, and RESTful APIs.

Projects

Volunteer.io [GitHub](#)

Responsible for creating the back end for this application providing users the ability to find, join or manage volunteer projects in their communities. Built by a team of two collaborating remotely using a **React** front end and **Django/PostgreSQL** back end. The application includes a live chat feature supported by **Django Channels** to handle **WebSocket** requests and a **Redis** message broker.

popQuest [GitHub](#)

Responsible for creating the back end along with one team member for an application allowing users to design and fulfill clue and answer driven quests in their cities. Built by a group of four collaborating remotely and utilizing the **MERN** stack and **Mapbox GL**.

'React-a-thon' [GitHub](#)

A 36-hour, pair-coded project involving a **React** front end application consuming the Trefle.io public RestAPI. The site allows users to browse and search a selected dataset including plants considered edible.

FARM AID *Cambridge, MA, USA*

7/2015 – Present

Office & Operations Manager

- Administer payroll and benefits for the organization.
- Process Accounts Payables & Receivables ensuring approvals and correct coding as well as providing reconciliations and reports utilizing Excel and QuickBooks.
